Civic Screens introduce a range of 'award winning' semi-frameless showerscreens. Choose from Euro or our flagship Mirage Screen.

Both screens have the versatility to suit any bathroom design and can be used with prefabricated shower bases or free flowing floor setup, making them incredibly versatile.

Our expert consultants can advise you about the most practical screen to meet your needs and budget.

Mirage screens give you an almost identical look to that of the frameless screen. They are constructed using 6mm toughened glass with glass to glass panels and corners with a minimal frame to maintain a sleek, open feel. The Mirage also allows you to 'upgrade' to a deluxe model using 2 infill panels with a centre door.

The Euro is our most popular screen for good reason, its versatile design uses 5mm glass with a fully frameless door. Choose from standard heights (1870 or 1970mm) or we can cut a specific size for you.

At Civic we recognise that not all bathrooms have a separate shower enclosure so we also provide bath screens either as fixed panels on hob or a user friendly 'fix and swing' model.

Whatever you require, rest assured we will have the best screen to meet your individual needs.
